Backgrounder

Unprecedented gains in three-year tentative agreement tackle pressures facing health care workers

Full cost of living adjustments would see biggest wage gains in decades; tentative agreement includes new and improved benefits and allowances, and action on the staffing crisis

On September 1, the multi-union Facilities Bargaining Association (FBA) and the Health Employers Association of BC (HEABC) reached a tentative agreement covering more than 60,000 health care workers across the province.

The HEU Provincial Executive has endorsed the unanimous recommendation of the tentative agreement by the Facilities Bargaining Committee and is asking members to vote YES in upcoming ratification votes.

HEU's secretary business manager Meena Brisard says that seven months of negotiations took place against the backdrop of serious staff shortages and COVID-related burnout, along with rising costs not seen in decades.

"Our bargaining committee has negotiated an unprecedented agreement for the unprecedented times we are facing in health care and in the economy," says Brisard, who is the lead negotiator and spokesperson for the FBA.

"By April 2024 – a little more than 18 months from now – members covered by this agreement will see their wages increase by 14.2% to 14.9% if the maximum cost of living adjustments are triggered."

There will be additional increases prioritizing lower-paid classifications starting in 2023 as part of a review of how wage cuts made by the BC Liberals in 2004 have impacted pay equity in the bargaining unit.

"Your bargaining committee has negotiated more than 100 new provisions, including a major update of our health and safety language, a number of new and improved premiums and allowances, more worker control over shift scheduling, action on reconciliation and diversity, and more opportunities for training and education," says Brisard.

"And significantly, health employers are committed to adding 9.25 million hours of staffing adding thousands of new workers to the front lines. More than three out of four of these positions will be regularized."

Wage, premiums and allowances on the rise

Under the proposed three-year contract, workers will see wage increases linked to cost of living adjustments in April 2023 and April 2024, on top of retroactive wage increases in April 2022 ([see page 11 for a detailed explanation](#)).

The April 2022 wage boost is 3.24% on top of 25 cents an hour, which for most members equates to a total wage boost of 4.24% or more. The flat amount in year one means a higher percentage for lower-salaried classifications.

In April 2023, a base 5.5% boost will be increased by up to 1.25% to a maximum of 6.75% if inflation outpaces the base amount. In April 2024, a base increase of 2% will be increased by up to 1% to a maximum of 3%.

At the lower end of the pay grid, that means a maximum 14.9% wage boost within 18 months of ratification with a minimum guarantee of 12.4% in the unlikely event that the cost of living adjustments are not triggered in either year.

For care aides – the largest classification in the bargaining unit – wages could rise by as much as 14.6% over the term of the agreement.

The tentative agreement also includes a process to address the historic wage cuts made by the BC Liberals in 2004 in future rounds of bargaining. As part of this agreement, more than \$15.6 million in ongoing funding will fund interim wage adjustments prioritizing lower-wage rated classifications starting in April 2023.

Former Labour Relations Board chair and HEU assistant secretary-business manager Jacquie de Aguayo will act as the arbitrator in this process.

Other compensation improvements include an increase to shift premiums phased in over the agreement. The increases to weekend, evening and

night premiums begin in April 2023, and those increases are retroactive.

“The bargaining committee secured a number of new and improved allowances that mean direct cost savings to members,” says Brisard.

“Employers will think twice about requesting sick notes as they’re now on the hook for half the cost. And criminal record checks required by the employer will now be fully reimbursed.”

FOODSAFE refresher courses will now be covered. The Trades Qualification premium has been significantly boosted, and there is now an allowance for CSA-certified grade one or two protective toecap or electrical protective footwear.

A union-administered fund has been established to reimburse positions such as Regulated Pharmacy Technicians for registration and license fees for a provincial health profession regulatory college where this is a condition of employment.

The transportation and clothing allowances have also been improved.

Workload, recruitment and retention, and improved work-life balance

“Addressing the pressure-cooker environment on health care’s front lines was a top priority for the bargaining committee,” says Brisard. “This agreement tackles the issue of workload head on.”

A key commitment by health employers to add 9.25 million new staffing hours to the bargaining unit by the end of the agreement meaning at least 2,000 new positions over and above contracted out workers who’ve been repatriated under the terms of the 2019-2022 Collective Agreement.

The bargaining committee negotiated stronger work prioritization language and additional

provisions that require the employer to engage in early and ongoing consultation with health care unions when COVID, floods, fires or other emergencies impact the deployment of health care workers.

There's new language that facilitates worker-led changes to reduce the number of six-day rotation schedules and stronger notice requirements when the employer is looking to change work-from-home arrangements.

Opportunities to port seniority, sick leave, vacation and other entitlements to a new Facilities employer have been expanded.

“Providing members with opportunities to have more control over their work-life balance, and providing them with more opportunities for career

advancement is key to retaining skilled workers and attracting the next generation of health care workers,” says Brisard.

The bargaining committee secured a record \$4.5 million in new funding for the popular FBA Education Fund, which has helped thousands of members with short- and long-term education and training opportunities to advance in their health care careers.

And importantly, unions, employers and government will continue to work to identify opportunities to bring more privatized work back into the health care system, including dietary and house-keeping workers at Fraser health P3 hospitals and facilities.

Improved health and safety, more stewards to enforce the contract

With the high rates of injuries, making workplaces safer was also a top membership priority. Workers will have input into care plans for aggressive patients or residents. The agreement also adds language to allow for violence prevention refresher training. JOHS committee rights have been extended, and occupational health and safety

also includes physical and psychological health and safety.

A number of new rights were also negotiated. This includes more resources for union stewards (21.2 full-time equivalent positions at the largest sites) and additional Enhanced Disability Management Program (EDMP) stewards.

Reconciliation in action

The National Day for Truth and Reconciliation statutory holiday (recognized on September 30) has also been added to the collective agreement.

The tentative agreement also includes up to five paid days off for ceremonial, cultural and spiritual events for Indigenous workers and unpaid leave to

campaign for and serve on Indigenous governing entities like band councils.

“We believe this agreement is a major step forward for our members and for our work as a union on reconciliation and decolonization. We're building a stronger health care system with more rights, respect and security,” said Brisard.

Diversity and inclusion in the workplace

The proposed contract also includes a number of reconciliation and equity-related improvements, including forming a Diversity, Equity and Inclusion (DEI) working group to collect data on the realities of racialized, disabled, and 2SLGBTQ+ health care workers.

The tentative agreement provides a strengthened process and better language for sexual and domestic violence leaves; and funding for trauma-informed counselling with a third-party investigator dedicated to sexual harassment complaints.

The agreement includes comprehensive language to improve trans inclusion in the workplace, and the parties have agreed to ask the Joint Facilities Benefit Plan to expand benefits coverage for workers accessing gender-affirming treatments and transition.

Updates will also be made to the collective agreement language to make it gender-neutral.

Meena Brisard says the tentative agreement addresses many of the priority issues members identified at their bargaining conference last fall, such as workload, short-staffing, mental health supports, and recruitment and retention.

“It’s significant that we were able to convince employers to work with us to address the workload, recruitment and retention, and health and safety issues for our members,” said Brisard.

“We’ve made significant progress in this agreement, with new provisions that will build a stronger health care system with more rights, respect and security for our members,” said Brisard.

More than 90 per cent of the FBA membership is represented by the Hospital Employees’ Union.

The tentative agreement needs to be ratified by both union members and health employers. If ratified, it will cover more than 60,000 health care workers in publicly funded hospitals, long-term care facilities, health authority corporate offices and warehouses, and other settings across the province.

FBA members work in direct patient and resident care as well as in support services, technical, clerical and trades and maintenance areas.

In addition to HEU, the FBA includes workers in eight other unions, including the B.C. General Employees’ Union and the International Union of Operating Engineers.

NOTE: This section (p. 11-42) provides an explanation and analysis of the major provisions of the tentative agreement. Please refer to the Appendix to this document (starting on p. 43) for agreed-to language.

Wages, premiums and allowances

SEE PAGES 47-55

Negotiations for a new agreement took place against the backdrop of a serious recruitment and retention crisis, and rising costs not seen in decades.

A high priority for the bargaining committee was to secure an agreement that protects pay cheques against inflation while providing an overall compensation package that will keep experienced workers on the job and attract new workers to the sector.

The tentative agreement includes substantial general wage increases, improved premium pay in a number of areas, and several other compensation-related gains that will benefit workers directly.

The bargaining committee has secured an unprecedented agreement for a review of the impact of the 2004 wage cuts on FBA members in preparation for future bargaining. The agreement includes modest funding for interim wage adjustments prioritizing lower-paid classifications starting in 2023.

The tentative agreement also includes a “me-too” clause that triggers additional increases should another public sector bargaining unit negotiate higher general wage increases or changes in the COLA calculation. ([see: MoA Public Sector Wage Increases p. 49](#))

General wage increases (GWI) and term of agreement

SEE PAGES 47-48

RETROACTIVE PAYMENTS

General wage increases, increases to weekend, evening, and night premiums and a number of new and improved allowances, will be paid retroactively to April 1, 2022.

For example, a full-time employee at grid 22 would see approximately \$1275 of gross retroactive pay, assuming it is calculated back from November 4. Any shift premiums or other allowances would be on top of this.

The term of the three-year tentative agreement is April 1, 2022, to March 31, 2025.

The agreement provides General Wage Increases (GWIs) in 2022, 2023 and 2024 with a potential cost of living adjustments (COLA) to the GWI in the last two years linked to increases in the annualized BC Consumer Price Index over a 12-month period.

If the maximum possible COLA is triggered in both the second and third year, the total wage increase over the three-year agreement will exceed 14% for all classifications by April 2024. For Grid 22 and below, total wage increases in this scenario would exceed 14.6% by April 2024.

Impact of GWI plus Cost of Living Adjustments (COLA) on selected classifications						
	GRID	CURRENT \$/HOUR	Hourly Wage by April 1, 2024		Total Increase (%) by April 1, 2024	
			NO COLA	MAX COLA	NO COLA	MAX COLA
Housekeeper	10	20.97	23.58	24.09	12.4%	14.9%
Nursing Unit Assistant	SD16(A)	24.46	27.45	28.05	12.2%	14.7%
Lab Assistant II(A)	SD18	25.31	28.40	29.02	12.2%	14.7%
Care Aide	22	25.83	28.97	29.60	12.2%	14.6%
Pharmacy Technician	32	29.86	33.46	34.19	12.1%	14.5%
Electrician	MA31	35.11	39.29	40.14	11.9%	14.3%

*Final wage grid may vary slightly from these numbers due to rounding.

Year 1: April 1, 2022

GWI – 4.24%* (\$0.25 an hour and then 3.24%)

Year 2: April 1, 2023

GWI – Minimum 5.5% plus up to 1.25% COLA to a maximum of 6.75%

Year 3: April 1, 2024

GWI – Minimum 2% plus up to 1% COLA to a maximum of 3%

*Based on Grid 22 (e.g. care aide) at the current rate of \$25.83, the \$0.25 increase in Year 1 equals about 1%. The Year 1 increase will range from about 3.82% to 4.47% across the Facilities' pay grid. The equivalent percentage wage increase will be higher for lower hourly wages and lower for higher hourly wages.

Cost of Living Adjustment (COLA) trigger:

The COLA in Year 2 and Year 3 will be triggered if inflation exceeds the GWI.

Examples: If inflation is measured at 7.5% in Year 2, the GWI would be 5.5% plus the additional maximum COLA of 1.25% for a total of 6.75%. But if inflation is 6.5%, the additional COLA GWI would cover the difference of 1% for a total GWI of 6.5%.

Please note that the COLA formula will not result in a reduction of the GWI. For example, if inflation in Year 2 is below 5.5%, there will not be a reduction in the GWI.

Inflation is calculated using the annualized average B.C. Consumer Price Index (BC CPI) numbers for the March to February periods preceding April 1, 2023, and April 1, 2024, and comparing them with the same period in the previous year.

This is a standard measure for calculating inflation-indexed programs, entitlements and wage triggers. It is used in B.C. for the calculation of allowable rent increases, adjustments to the minimum wage and MLA salaries.

For reference, the annualized average increase in the BC CPI for the period of March 2021 to February 2022 was 3.4%. The negotiated April 2022 GWI exceeds this amount.

Shift premiums

SEE PAGE 50

The proposed contract also includes increases to hourly shift premiums as follows:

IMPROVEMENTS TO HOURLY SHIFT PREMIUMS			
	CURRENT	APRIL 1, 2022*	APRIL 1, 2023
WEEKEND	\$1.80	\$2.00	\$2.15
EVENING	\$1.80	\$1.90	—
NIGHT	\$2.50	\$3.00	\$3.20

*Shift premiums are retroactive to April 1, 2022

Wage comparability review

SEE PAGES 50-52

In 2004, the BC Liberal government cut wages to members covered by the Facilities agreement as part of back-to-work legislation. Those cuts wiped out years of progress toward achieving pay equity in the bargaining unit.

The bargaining committee has secured an unprecedented agreement with health employers and government to review the impact of these historical wage cuts, and especially their impact on previous pay equity adjustments.

The Facilities Subsector Wage Comparability Review provides a process to make recommendations for the next round of bargaining as well as providing funding to provide interim wage adjustments prioritizing the lower-wage rated classifications starting in April 2023.

Former Labour Relations Board chair, Jacquie de Aguayo, is named as the arbitrator in this process. De Aguayo previously served as HEU’s assistant secretary-business manager and legal director.

The review includes a working group that will meet within 90 days of ratification and on a regular basis going forward. The working group will include union, employer and government representatives.

The arbitrator, de Aguayo, will help the parties decide what constitutes comparable jobs, relevant public sector comparators, and issues around the framework for the review process.

The review process will be informed by the pay equity principles and framework for job evaluation factors contained in Article 49 – Pay Equity of the Facilities agreement.

- In addition to the review process, the parties will determine the allocation of the interim annual, ongoing fund of \$10,635,000 per year (effective April 1, 2023): increasing to \$15,635,000 (effective April 1, 2024) to provide interim wage adjustments.
- And the parties will provide information and recommendations for government to consider in the development of its next bargaining mandate and for the FBA and HEABC to prepare and negotiate as part of the renewal of the 2022-2025 Facilities Collective Agreement.

Transportation allowance

SEE PAGE 52

The transportation allowance is improved for employees using their own vehicle to conduct business on behalf of and at the request of the employer.

The allowance will now be equivalent to the Canada Revenue Agency's reasonable per-kilometre allowance, currently set at \$0.61/kilometre for 2022, an increase from the current fixed rate of \$0.54/kilometre.

The minimum allowance has also been more than doubled, from \$2 to \$5 ([see Article 23 – Call Back p. 52](#)). These changes are retroactive to April 1, 2022.

Trades Qualification premium

SEE PAGE 50

Trades workers who hold a Trades Qualification (TQ) ticket as a requirement of their job will receive an annual \$900 TQ premium, up from \$625. If a tradesperson is required to have more than one TQ ticket, they will receive an annual \$1300 TQ premium, up from \$625.

Porter benchmark review

SEE PAGE 53

The parties have agreed to develop a new benchmark for porters and will meet within 180 days of ratification of the agreement to begin this work.

Orthopaedic Technologists

SEE PAGE 53

Increment steps have been eliminated for the Orthopaedic Technologists' wage grid, who will be paid based on the highest increment step. Currently Orthopaedic Technologists are the only classification with increments.

Sick notes

SEE PAGE 54

Where an employer requires a medical note, they will reimburse 50% of the cost. Current coverage for the cost of medical notes under the Enhanced Disability Management Program will continue.

Criminal records check

SEE PAGE 54

Employees will be reimbursed for criminal records checks, including the cost of fingerprinting if required, when it is a condition of their employment.

FOODSAFE

SEE PAGE 54

Where it is a condition of employment, the employer has agreed to reimburse current members for the FOODSAFE Level 1 Refresher, plus 1.5 hours at straight-time to complete the course.

Uniforms and footwear

SEE PAGE 54

The employer will reimburse up to \$125 a year for required Canadian Standard Association (CSA) certified grade one or two protective toecap or electrical protective footwear.

The uniform allowance is raised to \$12 per biweekly pay-period, up from \$10.

Both footwear and uniform allowances are retroactive to April 1, 2022.

Registration and license fees

SEE PAGE 54

Through the establishment of a \$700,000 annual FBA Licensing and Registration Fund, positions such as Regulated Pharmacy Technicians can apply for reimbursement for registration and license fees for a provincial health profession regulatory college where this is a condition of employment.

Forensic Psychiatric Hospital premium

SEE PAGE 55

The Memorandum of Agreement Re: Forensic Psychiatric Hospital Premium provides for the recognition of uniquely challenging working conditions at Forensic Psychiatric Hospital (FPH).

FBA members assigned to forensic minimum or medium security units or community settings, or maximum or multi-level security units will be eligible for additional hourly premiums of 2% or 4%, depending upon the unit designation.

Vacation and leaves

SEE PAGES 56-62

The bargaining committee has secured agreement to review the application of special leave language in the collective agreement which continues to be a concern for many members trying to access their special leave entitlements.

In addition, the tentative agreement brings leave provisions up-to-date and compliant with changes to the *Employment Standards Act* (ESA), and makes other improvements to leave provisions. And the collective agreement now includes a new statutory holiday on September 30 – the National Day for Truth and Reconciliation.

Vacation entitlement

SEE PAGE 56

Workers with 30 years of continuous service can now accrue an additional day of vacation for a total of 46 days of vacation, effective July 1, 2023.

Vacation scheduling

SEE PAGE 56

Annual vacation is accrued from July 1 to June 30. Vacation leaves must be requested in writing during vacation planning in each department and are approved based on seniority and operational requirements.

The proposed agreement now includes a process for regular full-time employees wanting more flexibility with vacation scheduling to hold back up to 37.5 hours in the annual vacation planning. They must submit their request to schedule the held back vacation by August 1.

Regular part-time employees will be entitled to hold back vacation on a proportionate basis, as outlined in Articles 28.01 and 28.02.

Compassionate/bereavement leave

SEE PAGE 57

Compassionate leave will be renamed bereavement leave so as not to be confused with compassionate care leave under the *Employment Standards Act*. And the definition of “family” in this provision has been updated and expanded to be more inclusive.

In addition, an Indigenous employee whose cultural practices include an expanded understanding of immediate family shall be granted bereavement leave consistent with those practices. See Ceremonial, cultural, spiritual and bereavement leave for Indigenous employees. ([p. 92](#))

Maternity leave

SEE PAGE 58

Changes to the maternity leave articles make them consistent with the *Employment Standards Act*, including extending leave commencement to anytime between 13 weeks before the date of birth and the date of birth, shortening the notice period of pregnancy that must be given to the employer from ten (10) weeks to four (4) weeks, adding six (6) weeks of maternity leave if the pregnancy is terminated or if the birth parent is unable to return at the end of the leave.

“Claw back” provisions have been eliminated for benefits and vacation accumulation while on leave for employees who do not return to employment for six (6) months following their maternity and/or parental leaves.

The maternity leave allowance waiting period has also been reduced to one (1) week from two (2) weeks, which is consistent with the *Employment Insurance* scheme.

Parental and adoption leave

SEE PAGES 59-60

To recognize and be inclusive of modern families, “paternity leave” in Article 30 - Special Leave will be renamed parental leave, which along with adoption leave, will increase from one (1) paid day to two (2) paid days for eligible employees.

Changes to parental leave include increasing the supplemental employee benefit to twelve (12) weekly payments, which may be shared between two parents who work for the same employer, and ensuring both parents are each entitled to the full 61-62 weeks of unpaid parental leave.

Special Leave working group

SEE PAGES 60-61

Under a Memorandum of Agreement, the parties will form a working group to identify common principles for the interpretation and application of Special Leave Article 30.01(3), which covers serious household or domestic emergencies, including illness or injury of an immediate family member.

The working group will work towards developing a joint interpretation document that employers, members and shop stewards can rely on to minimize disputes and confusion around the article.

The working group will include representation from the union and employer and will meet within 120 days of ratification. Arbitrator Judy Korbin will assist in developing the principles and act as a mediator if the two sides cannot reach an agreement within twelve months.

Sexual and domestic violence leave

SEE PAGE 61

Improvements to sexual and domestic violence leave, including clarifying how this leave may be taken, codifying the right of all employees, including casuals, to a minimum of five (5) paid days, and increasing the number of special leave days an eligible employee may take in addition to these five (5) days from three (3) to five (5), bringing the combined total to ten (10) paid days.

Unpaid leave

SEE PAGE 62

To bring the collective agreement in line with the *Employment Standards Act* (ESA), workers on ESA leaves will receive full benefits for the first 20 days of unpaid leave. For the balance of the leave, workers will continue to accrue seniority and service for annual vacation accrual and entitlement, increment progression, severance and pension. The employer will maintain health and welfare benefit coverage for employees on ESA leaves with the exception of workers on reservists' leave.

Other claims

SEE PAGE 62

Changes to Article 31.12 identify the criteria by which employees may need to reimburse the employer for paid sick leave if they later receive compensation or damages from a third-party claim, other than the Joint Facilities Benefit Trust (JFBT), for that same period.

Part-time employee sick leave

SEE PAGE 62

Article 31.13 has been amended to ensure part-time employees have access to at least as many sick days as provided under the *Employment Standards Act*.

Safety at work

SEE PAGES 63-77

With health injury rates higher than any other labour sector, safer working conditions and safe workloads were key priorities in this round of bargaining.

The COVID-19 pandemic, along with fires, floods and heat domes, have compounded serious staffing shortages and are causing serious burnout and other mental health challenges in addition to workload-related soft tissue injuries and exposure to violence.

The 2022-2025 tentative agreement contains a number of new provisions that deal directly with occupational health and safety, injuries, workload, and provide more Enhanced Disability Management Program (EDMP) stewards.

Joint occupational health and safety committees

SEE PAGES 63-70

Joint Occupational Health and Safety committees (JOHSC) are essential to contributing to safe working conditions by identifying and resolving health and safety issues in the workplace. Changes in this tentative agreement better support JOHSC members in ensuring employers meet their health and safety responsibilities.

A new definition clarifies that “occupational health and safety” includes both physical and psychological health and safety. And now, it is clear that the JOHSC can now recommend risk assessments when the committee has determined that there is a hazard in the workplace.

New language confirms compensation for JOHSC members for meeting prep time, fulfilling their JOHSC duties and functions, and participating in their annual education and the additional education day in a committee member’s first year. The employer will reimburse education costs.

Changes to Article 37.01 expand provisions to include worker health and safety representatives at smaller worksites where a JOHSC is not required. They have the same duties and functions as the JOHSC and access to the same education leaves. And provisions in the tentative agreement include relief coverage for JOHSC members when necessary.

Aggressive patients/residents

SEE PAGE 65

Employees who are providing care for an aggressive patient or resident will be able to give input into the instructions for care. And the employer will provide in-service and/or instruction in caring for aggressive patients/residents at the request of employees, and those employees may provide input on the topics for the in-services.

Employee safety

SEE PAGE 67

Violence prevention refresher training will be provided and employees can request the training, which will not be unreasonably denied.

New language outlines reporting procedures for harassment members may experience from patients and visitors.

Biological exposure control plans will be developed based on the precautionary principle. The precautionary principle means that where there is uncertainty about the mode of transmission, the highest level of safety and PPE must be implemented.

Sexual and domestic violence at work

SEE PAGE 68

The tentative agreement includes a commitment from the employer to revise or develop a policy to address sexual and domestic violence at the workplace that will be made available to all workers within 180 days of ratification.

The policy will:

- Identify the process for reporting.
- Commit to taking appropriate action, which may include creating and implementing individualized safety plans.
- Protect employees' confidentiality and privacy and ensure no adverse employer action is taken against the employee for reporting sexual or domestic violence in good faith.

The employer will indicate how to access community resources as well as employer support and resources, which will reflect the principles of trauma-informed care. And the employer will consider the risk of domestic and sexual violence as part of their violence prevention risk assessment.

A description of the new language for sexual and domestic violence leaves can be found on page 18.

Psychological health and safety

SEE PAGE 69

Ensuring good psychological health and safety in the workplace promotes mental health and helps to prevent psychological harm at work. The employer is required to implement the national *Psychological Health and Safety Standard* to protect workers from psychological harm and has agreed to communicate its adoption of the standard to employees.

To promote psychological safety, JOHSC are now empowered to identify psychological health and safety hazards, participate in related inspections and investigations, and recommend improvements for psychologically healthy and safe workplaces.

Included in the tentative agreement are all 13 factors affecting psychological health and safety in the workplace, which are: organizational culture, psychological and social supports, clear leadership & expectations, civility & respect, psychological demands, growth & development, recognition & reward, involvement & influence, workload management, engagement, balance, psychological protection and protection of physical safety.

Personal Protective Equipment (PPE) and Point of Care Risk Assessment (PCRA)

SEE PAGE 70

Workers covered by this agreement will benefit from any improved access to PPE, or to the PCRA process, that are negotiated in other health sector agreements.

Workload

Short-staffing, recruitment and retention challenges and the failure to backfill vacancies have created a huge workload crisis in health care, leading to stress, burnout and physical injuries. Securing measures to address workload and finding solutions to ease pressure on frontline workers was a priority in this round of bargaining.

WORKLOAD PRIORITIZATION

SEE PAGE 66

New language on workload in Article 37.07 includes provisions for employees to seek prioritization of work in any circumstances where workload is a concern. For direct patient care areas, the employer will provide a written process for work prioritization upon employee request.

REGIONAL WORKLOAD COMMITTEES

SEE PAGE 66

The work of the regional workload committees will be expanded to include: jointly reviewing information; discussing workload solutions such as regularization of hours and prioritization of work.

Under this language the employer may also create regular positions, add hours to regular part-time positions, and create float or vacation relief positions.

BEST PRACTICES

SEE PAGE 70

The parties agreed to continue efforts through a joint committee to create a standard set of best practice tools and establish investigation and assessment processes to identify and tackle workload issues.

SWITCH BC

SEE PAGES 70-73

SWITCH BC, also known as the B.C. Health Care Occupational Health and Safety Society was established in the last round of bargaining to address injury rates which had been spiralling out of control since the BC Liberals disbanded the Occupational Health and Safety Agency for Healthcare (OHSAH) in 2010.

The organization coordinates provincially to improve the physical, mental and psychological safety of health care workers, emphasizing training and collaboration with other stakeholders, including unions, employers, physicians, the Ministry of Health, and WorkSafeBC.

SWITCH BC's goals include promoting a safe and healthy work environment and organizational safety culture through prevention of injury initiatives, safe workloads, and promoting safer work practices and healthy workforces, including pilot and demonstration programs. The OHS Resource Centre is one of SWITCH BC's current projects.

Enhanced Disability Management Program (EDMP)

SEE PAGE 74

The program, negotiated in the 2012 round of bargaining, supports ill or injured workers by assisting them with disability management and returning to work in a safe and timely manner. The program ensures that employees' health information stays confidential.

Health employers will continue to fund EDMP at a base level of \$1.5 million annualized, with additional funds in the order of \$500,000 annualized for regional representation.

These additional funds are to expand services to the FBA's growing membership due to repatriation and new hires under the Health Career Access Program.

And to keep up with current practice, language on casuals self-referring to EDMP has been added to the collective agreement.

LTD Claimants Benefits Premium

SEE PAGE 75

The parties agreed to recommend that the JFBT review the Long-Term Disability Claimant Benefits Premium cost share arrangement and request the JFBT consider providing up to 100% coverage. Currently, claimants pay 50% for extended health and dental benefits.

Mental health coverage

SEE PAGE 75

In a recent poll, HEU members in the FBA identified that they are experiencing high levels of stress and are struggling with their mental health. The bargaining committee and the employers agreed to request that the JFBT enhance/improve coverage for mental health within their existing funding.

BENEFITS

The Joint Facilities Benefit Trust (JFBT), which was established under the terms of the 2014-2019 Facilities Collective Agreement, is responsible for administering extended health and dental, group life, accidental death and dismemberment (ADD), and long-term disability (LTD) benefits.

The JFBT is governed by a board composed of an equal number of employer and union trustees appointed by the parties to the Trust – the Facilities Bargaining Association (HEU and other FBA unions) and the Health Employers Association of B.C. Changes to benefits recommended to the JFBT by both parties will be considered for implementation by the JFBT. Decisions on providing improved benefits rests with the JFBT.

In January 2022, the JFBT made improvements to the benefits plan including eliminating the \$100 deductible, reimbursing annual eye exams for members and dependents up to \$100 per calendar year, and reimbursement of contraceptives included in the BC Pharmacare formulary.

Musculoskeletal Injury (MSI) prevention

SEE PAGE 76

The last FBA collective agreement allocated funds for a musculoskeletal injury prevention project to reduce injuries at sites with high-injury rates. The parties will continue this work.

Local and provincial emergencies

SEE PAGE 77

When an emergency is declared and impacts members of the bargaining unit, the employer will communicate with the union in a timely manner and with relevant information.

Pandemic Information Sharing Forum

SEE PAGE 77

A pandemic information sharing forum will be formed when the B.C. government declares a public health emergency that creates a health risk for a significant number of employees.

The forum will have representation from unions, employers, government and other relevant groups.

Recruitment and retention

SEE PAGES 78-90

Effective measures to attract and retain skilled workers will reduce workload and burnout, and ensure the sustainability of our health care system going forward.

Additional FBA hours

SEE PAGE 78

Staffing levels are a key contributor to safer working environments. Health employers have committed to an additional 9.25 million bargaining unit hours by December 31, 2024 (as compared to 2021) and have agreed that 78% of those new additional hours will result in regular part-time or full-time positions. Thousands of new regular positions will be created in addition to previously announced repatriation of contracted housekeeping and dietary staff.

Recruitment and Retention Working Group

SEE PAGES 79-80

In 2018 bargaining, a provincial recruitment and retention working group of union, employer and government representatives was formed. The committee developed solutions to create career-laddering opportunities for FBA members and to attract new workers to occupations facing severe shortages. The working group also initiated work addressing barriers to greater diversity and inclusion in the health care system.

Many issues identified by the Provincial Healthcare Recruitment and Retention Working Group were addressed in this round of bargaining through provisions to create immediate changes in working conditions and by the formation of committees tasked with advancing greater systemic change.

The employer will continue to fund this working group which meets quarterly to consider all relevant and available aggregate/anonymized data regarding diversity, equity, inclusion and Ministry of Health identified professions to develop a list of a comprehensive recruitment and retention recommendations for presentation to the Provincial Health Human Resources Coordination Centre.

Under the Trainer/Mentor Position Assessment Memorandum of Agreement, the working group will assess the feasibility of creating trainer/mentor positions to lead the training and mentoring of new employees. The working group will meet within 120 days and conclude their work within 12 months. ([see MOA – Trainer/Mentor Assessment p. 87](#))

Work-life balance

SCHEDULING AND SHIFT ROTATIONS

SEE PAGES 80-81

Members have made it clear that work-life balance is imperative to good mental and physical health. Working six-day rotations can have a negative impact on workers.

The FBA bargaining committee successfully negotiated a groundbreaking Memorandum of Agreement on scheduling entitled the “Employee-Initiated Rotation Proposals and the Rotation Support Fund.”

This will provide members – with union support and rotation personnel – an opportunity to revise their unit/department rotations that are mutually agreed to and approved by impacted regular employees with a 75% in-favour vote.

This new provision creates an opportunity for members to have input into their schedules and reduce the number of six-day rotations while fulfilling staffing and operational requirements and promoting recruitment and retention.

EXTENDED WORK WEEK/COMPRESSED WORK DAY

SEE PAGES 108-112

The Memorandum of Agreement Re: Extended Work Day/Compressed Work Week sets out the terms for calculating compensation for employees who work extended hours.

This new Memorandum replaces the Memorandum of Understanding Re: Schedules with Work Days Greater than 7.5 Hours and Up to and Including 8 Hours per Day and provides for broader application of Extended Work Days by providing the appropriate variation of entitlements, especially in relation to working hours in place of days. Members who move to an extended work day/compressed work week under the new Article 19.04 will be governed under the provisions in this Memorandum.

WORKING FROM HOME (WFH)

SEE PAGE 82

A new Memorandum of Agreement sets out the terms for introducing or continuing work from home arrangements, including protecting members’ collective agreement rights and providing a minimum of 30 days notice for the cancellation of WFH arrangements, including the ability to request reasons for cancellation.

PORTABILITY

SEE PAGES 81-82

New language on portability provides important gains for FBA members who accept employment at another work site covered by the Facilities collective agreement.

In addition to the current contract provisions, where unused credits for sick leave and vacation entitlements can be ported, employees would also be able to port special leave, and the timeframe to port seniority and benefits has been increased and standardized to one year.

Reversing privatization

SEE PAGES 84-86

The tentative agreement builds on the unions' historic work to undo the damage of years of privatization by the former BC Liberal government, with a commitment to bring in contracted support services workers at Fraser Health P3 hospitals and buildings back in-house.

A decade of campaigning and political action by union members, and the delivery by the NDP government on their promise to repatriate these workers, is having life-changing consequences for workers and contributing to a more stable and sustainable health care system.

The Bill 47 Working Group established in the 2019-2022 collective agreement has been renewed and updated. Bill 47 was the 2018 NDP legislation that repealed the BC Liberal-era laws (Bill 29 and Bill 94) that paved the way for privatization and contracting out. ([see Bill 47 – Contract Repatriation, p. 84](#))

The working group of union, employer and government representatives annually reviews all bargaining unit work that had been contracted out since Bill 29 was passed in 2002 and proactively identifies opportunities for an orderly return of this work under the Facilities collective agreement.

Under this arrangement, the government announced in August 2021 that about 4,000 workers (equal to 2,900 full-time equivalent or FTE) employed in food services and housekeeping under 21 separate commercial contracts with private corporations would be repatriated to health authorities.

Since then, thousands of workers have been transitioned back to health authority employment under the terms of a Labour Adjustment Template Agreement negotiated by the parties. The last of this group will be repatriated in October 2022.

Importantly, HEABC has also confirmed in writing that the Fraser Health Authority will take over a number of contracted services at hospitals and infrastructure that were built and serviced under public-private partnership schemes. ([see In-House Service Delivery of P3 Contracted Services, p. 86](#))

This will bring hundreds more contracted out workers under the Facilities collective agreement during the term of the collective agreement.

This includes:

- Abbotsford Regional Hospital and Cancer Centre: Food, Patient Portering, Housekeeping, and Help Desk (Sodexo)
- Surrey Memorial Hospital Critical Care Tower: Housekeeping (Aramark)
- Jim Pattison Outpatient Care and Surgery Centre: Housekeeping (BYE)

HEU will press for these transitions to occur as soon as possible and for action to include Compass housekeeping staff at the Teck building at BC' Children's and Women's Hospital in Vancouver.

Health Career Access Program (HCAP)

SEE PAGE 87

The health employers will continue to support this program to fund the training and hiring of up to 3000 care aides in both facilities and community health settings and will expand the program to other occupations.

Education and Training

FBA EDUCATION FUND

SEE PAGE 88

The FBA Education Fund has been increased from \$3 million to \$4.5 million over the life of the contract (\$1.5 million per year).

This union-administered fund provides monies for health care education and training for skills upgrading and career mobility opportunities. Since it was first bargained in 2006, nearly \$15.5 million has been dispersed to some 4,000 members.

JOINT RETRAINING FUND RENEWED

SEE PAGE 89

The Joint Retraining Fund, established in 2008, was created to retrain contracted out employees. The Fund will now target training needs of contracted service employees returning to the FBA bargaining unit.

FBA TRAINING FUND

SEE PAGE 89

A special one-time FBA Training Fund of \$300,000 is established to provide potential training in areas like mental health first aid, anti-racism and creating culturally-safe work environments. The parties may agree on other areas of training as well. This fund is distinct from the FBA Education Fund and the Joint Retraining Fund, and is effective April 1, 2023.

MOA Re: Joint Provincial Health Human Resources Coordination Centre

SEE PAGE 90

The province created the joint Provincial Health Human Resources Coordination Centre (PHHRCC) to address health care workforce needs, including supporting Indigenous workers and the development of culturally safe workplaces.

The PHHRCC — Bargaining Association consultation forum will review, develop and seek input on provincial health human resource strategy, including a focus on equity and diversity, advancing the recommendations of the *In Plain Sight* report, retention strategies and actions, including mental health and wellness, and other initiatives.

Building equity in our workplace

Public health care must provide equitable access to all who seek care, and that means we must identify and act to remove barriers to access by both patients and workers.

The parties to the agreement, in consultation with Indigenous health care workers and experts, have secured a number of provisions that advance our efforts to decolonize our health care system, and to foster greater inclusion and diversity within the workforce.

Truth and reconciliation

Health care settings are often not places of compassion, comfort and care for Indigenous patients or workers. Instead, Indigenous people can encounter racism and discrimination, as shown in Dr. Mary Ellen Turpel-Lafond's 2021 research report *In Plain Sight*, which shone a light on systemic racism in B.C.'s health care system.

As part of bargaining, a joint union-employer Indigenous-specific anti-racism (ISAR) working group discussed the damaging impact of colonialism and identified barriers in providing culturally appropriate care as well as opportunities for training, education and career advancement for Indigenous workers.

Working with this lens, the ISAR working group was responsible for negotiating all of the Indigenous worker provisions in this tentative agreement.

To signal the commitment between the employer and FBA, the parties amended the collective agreement preamble to reflect their commitment to confronting and healing the systemic racism underlining health care. ([see p. 91](#))

RECRUITMENT AND RETENTION OF INDIGENOUS WORKERS

[SEE PAGE 92](#)

To support the parties' commitment to reconciliation and the provision of culturally-safe care, the tentative agreement sets out a process to promote the hiring of Indigenous workers into the health care system. This includes recognizing special circumstances where Indigenous candidates may be provided preferential access to job postings.

CEREMONIAL, CULTURAL, SPIRITUAL AND BEREAVEMENT LEAVE FOR INDIGENOUS EMPLOYEES

[SEE PAGE 92](#)

The parties have agreed to new contract language providing paid leave for ceremonial, cultural and spiritual events for Indigenous workers. Effective April 1, 2022, Indigenous workers may request this two (2) day leave; the available leave will increase to five (5) days as of January 1, 2023. Any additional leave required will be unpaid.

In addition, under Article 29, an Indigenous employee whose cultural practices include an expanded understanding of immediate family shall be granted bereavement leave and shall be consistent with those practices.

POLITICAL LEAVE FOR INDIGENOUS GOVERNING ENTITIES

SEE PAGE 93

Article 34.05 has been expanded to include an unpaid leave of up to 90 days to run for Indigenous governing entities, including band councils, Metis Chartered Community Governments and other self-government arrangements. If elected, employees can take up to five (5) years of unpaid leave.

PROVINCIAL FORUM ON INDIGENOUS-SPECIFIC ANTI-RACISM IN HEALTH CARE

SEE PAGES 94-95

The parties signed a Memorandum of Agreement on the “Declaration on the Rights of Indigenous Peoples and Eliminating Indigenous Specific Racism in Health Care” to form a provincial forum.

With a commitment to reconciliation, their mandate is to create a culturally safe health care system by identifying, addressing and rectifying barriers in collective agreements, eliminating Indigenous-specific racism in health care, and increasing the representation of Indigenous workers in the health sector.

The Ministry of Health has partnered with the National Collaborating Centre for Indigenous Health (NCCIH), housed at the University of Northern BC, to build a collection of standards, policies, tools and resources for health care organizations and to create new tools and resources specific to B.C.

The forum will be led by the Indigenous Health branch of the Ministry of Health and will include representation from health care unions, employers and other leaders, including elders or knowledge keepers.

NATIONAL DAY FOR TRUTH AND RECONCILIATION

SEE PAGE 95

The new tentative agreement includes recognizing September 30 as National Day for Truth and Reconciliation and adding it to the collective agreement as a statutory holiday.

Diversity, Equity and Inclusion

DIVERSITY, EQUITY AND INCLUSION WORKING GROUP

SEE PAGES 96-97

The proposed contract includes the formation of the Diversity, Equity and Inclusion (DEI) Working Group to collect data on the workplace realities for racialized, disabled, and 2SLGBTQ+ health care workers and provide recommendations to the Ministry of Health and employers on how to tackle discrimination, racism and harassment on the job.

The working group will meet within 120 days of ratification and on a quarterly basis going forward in order to complete its work by March 31, 2025.

TRANS INCLUSION

SEE PAGES 97-98

The bargaining committee secured a Memorandum of Agreement that includes a comprehensive approach to promoting trans inclusion in the workplace, including a cumulative total of up to eight (8) weeks of paid leave specifically for gender-affirming surgical procedures and revision.

In addition, the parties will jointly request that the Joint Facilities Benefit Trust (JFBT) review gaps in its support for gender-affirming care and amend the plan to expand health benefits coverage for this care.

GENDER NEUTRAL LANGUAGE

SEE PAGE 98

The parties also agreed to update the collective agreement language to make it more gender-neutral and in line with human rights amendments, such as revising “mother-in-law” and “father-in-law” to “parent-in-law.”

Respectful workplace

Stronger collective agreement provisions clarify the scope of human rights protections available to members, provide clearer deadlines for acting on human rights’ complaints, and provides more resources to handle sexual harassment complaints.

NO BULLYING OR HARASSMENT

SEE PAGE 99

The parties agreed to rename Article 4, “No Discrimination,” to “Respectful Workplace.” It was also decided to outline the definitions of discrimination in the *Human Rights Code* and highlight that sexual harassment is a serious form of harassment.

COMPLAINTS INVESTIGATION

SEE PAGES 99-100

The FBA bargaining committee successfully strengthened language and the process for filing complaints, especially of a human rights nature.

Under the proposed contract, the employer would be required to investigate respectful workplace complaints within 15 days of the complaint being filed and provide an outcome within 45 days of the investigation.

The employer also committed to funding a third-party investigator – trained in trauma-informed counseling – who will be dedicated to workplace sexual harassment complaints.

New language on bullying is also defined and added to the collective agreement.

Union rights and contract enforcement

More union stewards

SEE PAGES 101-103

Shop stewards help enforce the collective agreement and members' rights but can struggle to find the time to advocate for members and enforce the contract.

Under Article 5, the parties have agreed to establish 21.2 full-time-equivalent permanent dedicated shop steward positions at some of the largest worksites. The positions take direction from the union but are paid by the employer at the steward's current rate of pay. Existing arrangements already in place at some sites are protected under this agreement.

Letters of expectation

SEE PAGE 103

Employees can request to have letters of expectation removed from their employee file 36 months after the date of the letter, as long as the behaviour or conduct that resulted in the letter has not reoccurred. This language applies to existing letters of expectation on file.

Induction

SEE PAGES 103-104

Under revised language, a union-designated local official can have up to 15 minutes to talk to new employees during employer induction sessions – either held in-person at the work site or virtually.

The parties agree that the union's induction video will also be a mandatory part of online onboarding new hires. There will be no loss of wages or benefits for local officials carrying out their duties during these sessions, which must be scheduled Monday to Friday, between 0900 to 1700 hours.

Union rest days

SEE PAGE 104

The agreement between the FBA and HEABC for rest days for union business is now included in the collective agreement. New language includes access to rest days where members worked a combination of regular work and union business for seven (7) consecutive days or more. Article 34.04 was updated to incorporate this new language. ([see Article 34.04 Unpaid Leave – Union Business on p. 104](#))

Rest and meal periods

SEE PAGE 105

Employees in a department or unit can now request to combine their rest and meal periods. And the parties confirmed that rest periods can no longer be scheduled at the beginning or end of shifts.

Union check-off

SEE PAGE 103

The employer will now provide employees' personal and work emails to the union. This will enable the union to communicate more readily with members and keep them up to date on union business.

Seniority hours

SEE PAGE 106

An amendment was made to ensure the employer sends the union seniority hours – on a quarterly basis – for all employees covered by the Facilities contract. The data should include work site information and be submitted in a sortable, electronic spreadsheet format.

Several housekeeping revisions were made to amend or update such items as article numbers, job titles, unions in the FBA, the printing of the collective agreement, etc.

Job postings and applications

SEE PAGES 106-107

Changes to the job posting and application language in Article 16.01(c) include allowing temporary vacancies of less than 15 days to first be filled by casual employees before proceeding to regular part-time and full-time employees. Previously, this applied to vacancies less than seven (7) days.

Language was added to offer vacancies to the next successful candidate if the initial successful candidate leaves the position within 30 days without reposting the position.

Article 16.06 was simplified to make clear that the employer will consider applications from employees on paid or unpaid leaves.

Streamlined arbitration referral process

SEE PAGE 113

New arbitrators have been added to the industry troubleshooter, expedited arbitration and classification appeals rosters in order to address members' issues in a more timely manner.

Supporting casual workers

In lieu pay

SEE PAGE 118

Upon ratification, casual “in lieu” pay will increase to 13% of their straight-time pay in lieu of scheduled vacations and statutory holidays as a result of adding the National Day for Truth and Reconciliation to Article 27.

Paid sick leave

SEE PAGE 118

Casuals are now entitled to five (5) paid sick days per year, as per new regulations in the *Employment Standards Act*.

Footwear

SEE PAGE 118

The employer will pay \$125 annually for required Canadian Standard Association (CSA) certified grade one or two protective toecap or electrical protective footwear for casual employees who have worked more than 1000 straight-time hours in the preceding year.

Probationary period

SEE PAGE 118

If a casual employee has not completed a 488-hour probationary period before posting into a regular position, they will either serve a 225-hour probationary period in their new position or complete the remainder of their probationary period, whichever is greater. This change will minimize the discrepancies in the probationary period language in Article 13 and Section 11 of the Casual Addendum.

Casual Addendum

SEE PAGE 117

The Casual Addendum has been updated with housekeeping changes to ensure it is clear that casuals have better access to Article 17, including the ability to register on another casual list or port seniority to another health sector employer when laid off due to restructuring initiatives.

Miscellaneous

BCEHS IT Operations and Telecommunications Callout Compensation Allowance

[SEE PAGE 119](#)

This Memorandum of Agreement confirms a longstanding practice for certain FBA members at BC Emergency Health Services IT Operations and Telecommunications with respect to the application of Standby and Callout Compensation.

Isolation Travel Allowance

[SEE PAGE 120](#)

Zeballos has been added to the list of communities covered by the Isolation Travel Allowance.

The Isolation Allowance has been renamed Isolation Travel Allowance to ensure that this allowance is now eligible to support the Canada Revenue Agency deduction for travel benefits for members who are Northern residents.

Termination of employment

[SEE PAGE 121](#)

Employees providing less than 28 calendar days' notice of resignation – not including vacation time – will no longer have their earned vacation payout reduced by 2%. They will receive their full entitlement. Although employees are encouraged to give sufficient notice to minimize the impact on health care delivery and staffing, they will no longer risk being penalized contrary to the *Employment Standards Act*.

Printing of the collective agreement

[SEE PAGE 121](#)

Article 47.01 was updated to include making electronic versions of the collective agreement available to employees. And language was added to specify that one document will be printed for every three employees per worksite.

Housekeeping deletions from collective agreement

[SEE PAGE 122](#)

A number of memoranda and attachments, that are no longer applicable or have been incorporated in new provisions, are deleted from the collective agreement.

There are a number of housekeeping changes consequential to the negotiated provisions not included in this package. All other memoranda and attachments continue in the tentative agreement.

Appendix: Terms of Settlement

Re: Cost of Living Adjustment

Definitions

“General Wage Increase” or “GWI” means the overall general wage increase expressed as a percentage.

“Cost of Living Adjustment” or “COLA” means a percentage-based general wage increase adjustment provided in accordance with this Memorandum of Agreement. COLA is an upward adjustment applied to and folded into all wage rates.

The “annualized average of BC CPI over twelve months” (AABC CPI) means the *Latest 12-month Average Index % Change* reported by BC Stats in March for British Columbia for the twelve months starting at the beginning of March in the preceding year and concluding at the end of the following February.

The “Latest 12-month Average Index”, as defined by BC Stats, is a 12-month moving average of the BC consumer price indexes of the most recent 12 months. This figure is calculated by averaging index levels over the applicable 12 months.

The *Latest 12-month Average Index % Change* is reported publicly by BC Stats in the monthly *BC Stats Consumer Price Index Highlights* report. The *BC Stats Consumer Price Index Highlights* report released in mid-March will contain the applicable figure for the 12-months concluding at the end of February. The percentage change reported by BC Stats that will form the basis for determining any COLA increase is calculated to one decimal point. For reference purposes only, the annualized average of BC CPI over twelve months from March 1, 2021 to February 28, 2022 was 3.4%.

COLA

The COLA will be applied as applicable to the GWI effective on the first pay period after April 1, 2023 and April 1, 2024. The COLA will be calculated by determining the difference between the AABC CPI and the annual general wage increase to the maximum COLA prescribed that year in Wage Schedule – Grids.

April 2023

If the 2023 AABC CPI exceeds the April 2023 GWI of 5.5%, then, on the first pay period after April 1, 2023 the April 2023 GWI will be adjusted upwards to reflect a COLA equal to the difference between the April 2023 GWI and the 2023 AABC CPI up to a maximum of 1.25%.

April 2024

If the 2024 AABC CPI exceeds the April 2024 GWI of 2.0%, then, on the first pay period after April 1, 2024 the April 2024 GWI will be adjusted upwards to reflect a COLA equal to the difference between the April 2024 GWI and the 2024 AABC CPI up to a maximum of 1.00%.

Re: Public Sector Wage Increases

1. If a public sector employer, as defined in s. 1 of the Public Sector Employers Act, enters into a collective agreement with an effective date after December 31, 2021 and the first three years of the collective agreement under the Shared Recovery Mandate includes cumulative nominal (not compounded) general wage increases (GWIs) and Cost of Living Adjustments (COLAs) that, in accordance with how GWIs are defined and calculated in this LOA, are paid out and exceed the sum of the GWIs and COLAs that are paid out in the Collective Agreement, the total GWIs and COLAs paid out will be adjusted on the third anniversary of the collective agreement so that the cumulative nominal (not compounded) GWIs and COLAs are equivalent. This Memorandum of Agreement (MOA) is not triggered by any wage increase or lump sum awarded as a result of binding interest arbitration.
2. For the purposes of calculating the general wage increases in paragraph 1:
 - a) a \$0.25 per hour flat-rate wage increase for employees with their hourly wage rates set out in the Collective Agreement; or
 - b) any alternative flat-rate wage increase for employees whose hourly wage rates are not set out in the Collective Agreement that is determined by the Public Sector Employers' Council Secretariat to be roughly equivalent to a \$0.25 per hour flat- rate wage increase;

shall be considered to be a 0.5% general wage increase, notwithstanding what it actually represents for the average bargaining unit member covered by the Collective Agreement. For clarity, under paragraph 2 a), the combined GWIs of \$0.25 per hour and 3.24% in Year 1 are considered to be a single increase of 3.74% for this LOA. For example purposes only, combining the 3.74% increase (as it is considered in this LOA) in Year 1 with the maximum potential combined GWI and COLA increases of 6.75% in Year 2 and 3% in Year 3 would result in a cumulative nominal increases of 13.49% over three years.
3. For certainty, a general wage increase is one that applies to all members of a bargaining unit (e.g. everyone receives an additional \$0.25 per hour, \$400 per year, or 1% increase) and does not include wage comparability adjustments, lower wage redress adjustments, labour market adjustments, flexibility allocations, classification system changes, or any compensation increases that are funded by equivalent Collective Agreement savings or grievance resolutions that are agreed to in bargaining.
4. A general wage increase and its magnitude in any agreement is as confirmed by the Public Sector Employers' Council Secretariat.
5. This MOA will be effective during the term of the Collective Agreement.

MEMORANDUM OF AGREEMENT (NEW)
Between
HEALTH EMPLOYERS ASSOCIATION OF BC (HEABC)
and
FACILITIES BARGAINING ASSOCIATION (FBA)
and
THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

Re: Facilities Subsector Wage Comparability Review

WHEREAS in 2004 certain legislative and labour relations actions were imposed on the FBA and resulted in the significant reduction in FBA member wages;

WHEREAS the parties recognize the importance of ensuring that employees are paid fairly for the work they do, including gendered and racialized workers, whose work has been historically undervalued in the provision of healthcare; and

WHEREAS it is in the interests of all parties for employers to recruit and retain employees to ensure that the delivery of healthcare services is maintained at optimum levels without resulting in unsustainable workload pressures being placed on employees;

THEREFORE the parties agree to conduct a Wage Comparability Review Process (the “Review Process”) between the FBA Collective Agreement and other relevant BC public sector comparators, including the BC Public Service in accordance with this Memorandum.

Objectives

1. The parties will:
 - a. Reasonably provide and review relevant and available FBA-related wage data, including historical wages;

- b. Identify any wage comparability issues;
- c. Identify options to address identified issues, which may include addressing wage comparability issues for gendered and racialized workers;
- d. Allocate available funds to address identified priority issues; and
- e. Make recommendations to Government in advance of the next round of collective bargaining:
 - i. to address wage comparability issues, and
 - ii. to provide appropriate, permanent wage adjustments.

The Fund

- 2. To address identified priority issues during the term of the Collective Agreement, the parties agree to allocate \$10,635,000 effective April 1, 2023, which will be increased by \$5,000,000 effective April 1, 2024 (the “Fund”). For clarity, the ongoing annual amount will be \$15,635,000. The Fund will be used to provide interim wage adjustments. The Fund’s respective annual allocation cannot be exceeded.

Interim Wage Adjustments

- 3. The interim wage adjustments for lower wage-rated classifications will be prioritized and balanced with respect to maximizing:
 - a. the amount of an hourly wage rate increase, and
 - b. the number of employees whose wages may be increased.
- 4. Interim wage adjustments will be applied to identified grids on the General Wage Schedule on a permanent basis.

Wage Comparability Review Process

- 5. A Working Group shall be established within ninety (90) days of ratification. The Working Group shall have no more than ten (10) persons with equal representation from the FBA and HEABC (one of HEABC’s spots will be filled by a PSEC Secretariat representative). The two parties will endeavour to appoint representatives to the Working Group who have the expertise and experience relevant to the work.
- 6. The parties agree to conduct the Review Process to determine the extent of the compensation differences between the Facilities Subsector and relevant BC public sector comparators, including the BC Public. The Review Process will be informed by the pay equity principles and framework for job evaluation factors in Article 49 – Pay Equity of the Facilities Subsector Collective Agreement.
- 7. The Review Process will:
 - a. determine the allocation of the Fund effective April 1, 2023; and
 - b. provide information and recommendations for Government to consider in the development of its next bargaining mandate and for the FBA and HEABC to prepare for and negotiate as part of the renewal of the 2022-2025 Facilities Subsector Collective Agreement in furtherance of the Objectives of this Memorandum.
- 8. The Working Group will engage Vicki Averill as an expert resource.
- 9. The Working Group will develop, for approval by the parties, the Terms of Reference for the Working Group, to complete the Review Process and accomplish the Objectives of this Memorandum. By March 31, 2024, the Working Group will submit a report to the Government with a recommendation on options

and any funding required for the parties to address wage comparability issues during negotiations of the Renewal of the 2022-2025 Facilities Collective Agreement.

10. To assist the parties in resolving disputes that may arise during the Review Process, the parties shall appoint Jacquie de Aguayo as arbitrator (the “Arbitrator”) to decide matters on an expedited basis. The Arbitrator will assist the parties in mediating disputes.
11. The Arbitrator’s jurisdiction will be limited to deciding what constitutes comparable jobs, relevant BC public sector comparators, and issues around the framework for the Review Process.
12. The parties agree that the expedited arbitration process will be as follows:
 - a. Should the parties wish to utilize external legal counsel, such costs would not be funded by the Working Group Resources, as provided below.
 - b. The presentations will be short and concise. Where appropriate, the length of the presentation will be commensurate to the scope and gravity of the dispute at hand.
 - c. The Arbitrator will give the Working Group a succinct written decision within twenty (20) days of the hearing regarding any issue referred to the arbitrator.
 - d. The decision of the Arbitrator will be final and binding on the Working Group.
13. The FBA and HEABC will attempt to reach consensus on the approach to address any wage comparability issues. In the event the two parties are unable to reach consensus on any elements of the report, they will submit their alternate recommendations to Government.

Working Group Resources

14. Given the importance of this work, and the significant workload, the Working Group will be allocated up to \$300,000 for the purposes of engaging resources to support the work to complete the Review Process. The Working Group will determine how the available funds will be used. Any unused funds from this allocation will be transferred to the FBA Education Fund.

Re: Musculoskeletal Injury (MSI) Prevention Project: Four (4) Priority Sites

Preventing musculoskeletal injuries (MSI) is a high priority for all stakeholders in healthcare.

~~Accordingly, the parties, commit to working towards reducing MSI in the workplace, and seek to initiate projects with the following goals in mind: Accordingly, the parties established the MSI Project in 2019 – 2022 to work towards reducing MSI in the workplace, and carry out the pilot project with the following goals in mind:~~

- Reduce incidence of MSI in identified pilot sites;
- Increase perception of ergonomic safety among staff and physicians at each of the pilot sites;
- Increase knowledge of how to mitigate/eliminate MSI among staff and physicians in each of the pilot sites; and
- Use lessons and solutions gathered from the pilot projects to create a “best practices” guide for MSI prevention that can be followed at other sites.

To this effect, ~~by April 1, 2019,~~ the parties will ~~strike~~ maintain a steering committee comprised of three (3) representatives appointed by the FBA and three (3) representatives appointed by HEABC (the “Project Steering Committee”). The Project Steering committee, through a data analysis process, will jointly choose four (4) pilot sites to assess ergonomic concerns, create individualized interventions, and evaluate their outcomes. If sufficient funds are available after the four (4) projects are completed, the parties may consider additional sites.

The importance of the topic and the significant resources dedicated to this project require meaningful collaboration between all parties through shared governance, thoughtful planning, including extensive staff engagement, transparent implementation, and thorough evaluation.

The initiatives at the pilot sites will be funded with the following one-time monies, provided by the Ministry of Health, administered by the Project Steering Committee:

- \$250,000 for 2019/20
- \$250,000 for 2020/21
- \$500,000 for 2021/22

Funds will be released by the Ministry, based on completion of a Ministry approved project plan.

Before the end of ~~2021/22~~ 2024/25, the Ministry will meet with representatives of the Project Steering Committee to evaluate the achievements made within the framework, and discuss the potential continued funding of the initiative. Similar to all funding commitments made by the Ministry, the commitment in this letter is subject to appropriation by the Legislature of the required monies on an annual basis as required under s.21 of the *Financial Administration Act*.

Upon completion of the current MSI Project, the Project Steering Committee may also request that the parties allocate up to \$1,000,000 to continue the work.

Re: Pandemic Information Sharing Forum

The parties acknowledge the hard work of employees, Employers and Unions in responding to the COVID-19 pandemic.

Throughout the COVID-19 pandemic, the parties recognized the value of collaboration and cooperation, and convened a provincial occupational health and safety forum to share information and address provincial-level issues as they arose. The parties found this forum was effective in supporting the pandemic response and addressing health and safety concerns.

The parties acknowledge the importance of learnings from previous public health emergencies, such as those outlined in the 2003 Ontario SARS Commission final report.

The parties acknowledge the importance of providing timely information to employees and JOHSC.

Accordingly, the parties agree to establish a pandemic information sharing forum (the “forum”) where a public health emergency is declared by the Government of British Columbia that creates a health risk for a significant number of employees.

The forum will consist of one (1) representative from each participating bargaining associations, HEABC, Employer representatives, and a senior representative from Ministry of Health. The forum may also include a representative from Doctors of BC, WorkSafeBC or other relevant groups as agreed by the participants.

Re: FTE Commitment

The parties agree that the total number of FBA member straight time paid hours will increase by a total of ~~9,250,000~~ ~~7,000,000~~ ~~600,000~~ hours, over the ~~2021~~2017 calendar year total straight time paid hours by December 31, ~~2024~~2021. Re: Health Career Access Program (HCAP)

As part of StrongerBC: BC's Economic Recovery Plan the Government of British Columbia introduced the Health Career Access Program (HCAP), a Ministry of Health funded program that provides opportunities for individuals to upskill or reskill by obtaining paid education while also gaining work experience. This initiative supports the increased need for additional health care staff and is intended to play a key role in building capacity in the B.C. health sector and economy.

While HCAP currently applies to Health Care Support Workers in settings that include long-term care, assisted living, and home and community care, the Ministry of Health is interested in expanding HCAP to other positions and settings. This commitment supports the training for highly valued and respected workers who provide important support to B.C.'s health system.

The Ministry of Health has committed to continue HCAP to the end of 2024/25 with a funding commitment for up to 3,000 positions per year, which includes both Facilities Subsector and Community Subsector positions. HCAP will continue to focus on Health Care Support Workers in long-term care, assisted living, and home and community care, however the Ministry of Health may expand HCAP into acute care and to up to two (2) other Facilities Subsector professions, with an initial allocation of up to 200 of the available positions to those profession(s).

The Ministry of Health will engage the FBA Provincial Recruitment and Retention Committee established under the MOA Re. Provincial Recruitment and Retention to identify other professions suited to the HCAP within one hundred twenty (120) days of ratification.

Re: Joint Provincial Health Human Resources Coordination Centre (PHHRCC) – Bargaining Association Consultation Forum

Social, environmental, demographic, and economic factors are increasing the demand for healthcare within British Columbia. To deliver the required services a skilled and engaged workforce is required. That workforce is integral to a robust, accessible public system with the ability to rapidly respond to key challenges.

The past few years have been a time of unprecedented change and challenge for B.C.'s health workforce. It is important for the system to have a coordinated approach to identify important themes, address challenges, and build upon existing resources to create a sustainable, equitable, and effective healthcare system.

To effectively deliver on this work the Ministry of Health has established a new Provincial Health Human Resources Coordination Centre (PHHRCC) with membership from the Ministry of Health, Health Sector Workforce and Beneficiary Services Division, regional health authorities, the Provincial Health Services Authority, the Health Employers Association of B.C., and the First Nations Health Authority. The PHHRCC reports to Leadership Council.

The PHHRCC is intended to bring significant focus, attention and discipline to key provincial- level human resource planning activities and initiatives. It will identify strategic actions, develop implementation plans for key approaches, and provide governance, oversight and monitoring of the implementation of these plans. The PHHRCC will look at both intermediate and long-term strategies and actions, as well as address urgent challenges through immediate action, including a focus on supporting Indigenous workers and supporting development of a culturally safe workplace.

In furtherance of the work of the PHHRCC, the Ministry of Health wishes to create a forum for input from Unions. To that end, on a regular basis the Ministry will convene a joint PHHRCC – Bargaining Association consultation forum for the following purposes:

1. Seek input from the Bargaining Associations on evolution and implementation of the Provincial Health Human Resource (HHR) Strategy.
2. Seek input from the Bargaining Associations on issues facing their members with respect to HHR plans, including a specific focus on supporting equity and diversity in the workforce and advancing the recommendations set out through *In Plain Sight*.
3. Seek input from the Bargaining Associations on specific initiatives and plans, including a specific focus on strategies or actions to support the retention of the workforce, including mental health and wellness
4. Consult with the Bargaining Associations on other initiatives that may be considered by PHHRCC.

PHHRCC acknowledges the mutual covenants binding the Parties (HEABC and the FBA) through the terms and conditions of the Collective Agreement. When enacting activities and initiatives, PHHRCC shall give recognition to the process for amending these terms and conditions.

By XX, the Ministry of Health will convene the Forum and present the Terms of Reference for input prior to finalization by the Ministry.

The Ministry intends for this Forum to serve all interested parties in the provincial health care sector, not only the Facilities Subsector. To that end, the Ministry will make efforts to promote participation in the Forum on a provincial and sector-wide basis.

The Ministry of Health shall hold the Forum semi-annually, or more frequently as deemed necessary.

Building equity in our workplace

TRUTH AND RECONCILIATION

ARTICLE 1.01 – PREAMBLE

WHEREAS the parties acknowledge with gratitude that they, and their members, work on the traditional, ancestral, and unceded territory of BC First Nations who have cared for and nurtured these lands from time immemorial. The parties acknowledge the pervasive and ongoing harms of colonialism faced by Indigenous peoples. These harms include the widespread systemic racism against Indigenous peoples as users, patients, and staff in BC's healthcare system, as highlighted in the 2020 In Plain Sight report. We are committed to confronting and healing the systemic racism underlying this system in our provision of healthcare services.

AND WHEREAS the right of the sick person to uninterrupted, skillful and efficient care cannot be questioned, and it is obligatory upon the Employer and its employees that efficient operation of the Employer's business be maintained, and to effect this, it is important that harmonious relations be continued between the Employer and its employees;

AND WHEREAS the Association is made up of trade unions formed by and including certain employees of the Employer;

AND WHEREAS the parties hereto, with the desire and intention of making their relationship more harmonious and profitable, have concluded to make provision herein for the orderly and expeditious consideration and settlement of all matters of collective bargaining and of mutual interest, including wages, hours, working conditions and the adjustment of grievances, with respect to the employees of the Employer for whom the Association has been certified as bargaining agent;

NOW THEREFORE THIS AGREEMENT WITNESSETH that the parties hereto in consideration of the mutual covenants hereinafter contained, agree each with the other as follows:

MEMORANDUM OF AGREEMENT (NEW)
Between
HEALTH EMPLOYERS ASSOCIATION OF BC (HEABC)
and
FACILITIES BARGAINING ASSOCIATION (FBA)

Re: Recruitment and Retention of Indigenous Workers

1. The parties agree that Indigenous peoples are under-represented as workers in the health care system, and Indigenous peoples have historically experienced barriers to accessing health care services. Addressing the under-representation of Indigenous peoples in the health sector workforce is a critical strategy to ensure cultural safety within the health care system for both workers and patients/residents/clients/service users. To that end, the parties will actively support employment equity programs to promote the hiring of Indigenous workers into the health care system, and to increase Indigenous representation within the FBA bargaining unit.
2. To support the recruitment and retention of Indigenous workers, and to improve the care of Indigenous patients/residents/clients/service users across the health care system, the parties recognize that Employers may select an Indigenous candidate, even where they are not the most senior qualified candidate, when one or more of the following circumstances exist:
 - the Employer has identified a position that provides care or services to Indigenous communities or Indigenous patients/residents/clients/service users and requires the cultural expertise or knowledge of Indigenous peoples, communities and/or nations;
 - where commitments to hire Indigenous peoples with external funding for programs have to be met; and/or
 - where the Employer has identified it is desirable to hire Indigenous peoples into leadership or mentorship roles.
3. The parties agree that there may be new or existing positions that require lived experience or knowledge of Indigenous peoples, communities and/or nations. In such cases, the Employer has the management right to require such qualifications on the job description.
4. Further to the circumstances identified in paragraphs 2 and 3, in the absence of fully qualified applicants for a posted position, the Employer may choose to hire an Indigenous candidate who does not possess all required qualifications for the position but would become job ready through Employer-provided training, orientation or mentoring.

**ARTICLE XX – CEREMONIAL, CULTURAL, SPIRITUAL AND BEREAVEMENT LEAVE FOR
INDIGENOUS EMPLOYEES**

Indigenous employees have a right to manifest, practice, develop and teach their spiritual and religious traditions, customs and ceremonies and may require leave from work to exercise these rights.

Definitions:

A ceremonial, cultural, or spiritual event under this section includes any event that is significant to an Indigenous employee’s culture. Examples of significant cultural events include, but are not limited to, Hoobiye, Pow-wows, Sundance, participation in a sweat lodge, coming of age events, feasts or ceremonies held following a significant family event (including the death of a family member).

“Immediate family” for the purposes of accessing Bereavement leave under Article 29.01 includes an Indigenous

employee's parent, step-parent, foster parent, guardian, spouse, child, step-child, foster child, sibling, step-sibling, sibling-in-law, grandparent, grandchild, parent-in-law, parent's sibling, parent's sibling's child, an Indigenous elder*, or any individual an Indigenous employee considers family consistent with their Indigenous cultural practices.

* An Indigenous elder is designated as such by their community.

- a) Effective April 1, 2022, an Indigenous employee may request up to two (2) days of leave per calendar year without loss of pay to participate in ceremonial, cultural, or spiritual event(s). The leave may be taken in one or more blocks of time. Where such leave is requested, the leave shall not be unreasonably denied. Leave under this provision is in addition to an Indigenous employee's entitlement to leave under Article 29.01 - Bereavement Leave as applicable (and per the expanded definition of "immediate family", above). The number of days shall be increased to five (5) days per calendar year effective January 1, 2023.
- b) Where an Indigenous employee requires more than the days of leave in a) above for a ceremonial, cultural, or spiritual event, the leave shall not be unreasonably denied. This additional leave is unpaid, however, an employee may draw from their available vacation and overtime banks, as applicable (and per the expanded definition of "immediate family", above).
- c) When requesting the leave, particularly for annual or recurring ceremonial, cultural, or spiritual events, the employee will provide as much advanced notice to the Employer as possible; for unexpected ceremonies or events, the employee will make every effort to provide at least seven (7) calendar days' notice of the leave.

ARTICLE 34 – LEAVE – UNPAID

34.05 Unpaid Leave – Public Office and Indigenous Governing Entities

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

Re: Declaration on the Rights of Indigenous Peoples and Eliminating Indigenous Specific Racism in Healthcare

The parties acknowledge the pervasive and ongoing harms of colonialism faced by Indigenous peoples. These harms include the widespread systemic racism against Indigenous peoples in BC's health system, as highlighted in the 2020 *In Plain Sight* report.

The parties agree to uphold the *United Nations Declaration on the Rights of Indigenous Peoples*, which has been brought into the laws of British Columbia under the *Declaration on the Rights of Indigenous Peoples Act*, SBC 2019, c 44.

The parties commit to working together to address the ongoing harms of colonialism and racism faced by Indigenous patients, clients, residents, service users, health care staff and providers, including by:

- committing to reconciliation in health care by supporting comprehensive, system-wide changes that enable Indigenous-specific anti-racism, and cultural safety;
- working together to actively identify, address and rectify barriers in Collective Agreements; and
- working to increase the representation of Indigenous individuals in the healthcare workforce.

The parties acknowledge that a coordinated and integrated provincial and sector-wide approach is crucial to further these joint commitments to eliminate Indigenous-specific racism and to create a culturally safe health care system.

To date, and in furtherance of recommendation no. 19 of the *In Plain Sight* report, Ministry of Health has partnered with the National Collaborating Centre for Indigenous Health (NCCIH), housed at University of Northern BC, to build a collection of anti-racism, cultural safety and trauma-informed standards, policy, tools and resources for health care organizations, including developing new tools and resources specific to BC.

Accordingly, building on the work underway, the parties support the creation of a provincial forum, led by the Indigenous Health branch of the Ministry of Health, that will include representatives from HEABC, health authority Vice Presidents of Indigenous Health and other leaders, representatives of other HEABC members, and health sector bargaining associations to engage in collaborative discussions that will inform the work moving forward and best position the parties in future rounds of collective bargaining (the "Forum"). Ministry of Health may also invite representatives from other relevant groups identified by the Ministry of Health, including Indigenous elders or knowledge keepers, to participate in the Forum from time to time or on an ongoing basis.

By (date), Ministry of Health will establish the Forum and present the Terms of Reference that will set out the purpose:

- to create a Forum for health authority Indigenous leaders and other leaders, and representatives of other HEABC members and unions to have continuing dialogue on the commitments stated above. The parties may use the Forum to present their ongoing or developing organizational initiatives, including the implementation of the Cultural Safety and Humility Standard, complaints processes, education, and training to eliminate Indigenous-specific racism and to hardwire cultural safety and humility into the workplace;
- to discuss ways to leverage resources being developed by NCCIH and Ministry of Health, as well as raising awareness of the wealth of resources within the health system now, including the repository of work housed with the NCCIH and resources already developed by health authorities;
- to discuss ways to address recruitment and retention of Indigenous staff, which may include developing recommendations for changes to Collective Agreement language in the next round of collective bargaining;
- to provide an opportunity for Ministry of Health to solicit feedback and report out on ongoing provincial initiatives, including continuing implementation of the *In Plain Sight* recommendations and the phased roll-out of the *Anti-Racism Data Act*, SBC 2022, c.18; and
- to improve awareness of and compliance with the *Declaration on the Rights of Indigenous Peoples Act*, SBC 2019, c 44.

It is understood that the Forum should serve all interested parties in the provincial health care sector, not only the Facilities Subsector. To that end, the parties will make all reasonable efforts to promote participation in the Forum on a provincial and sector-wide basis.

The Ministry of Health shall hold the Forum quarterly, or more frequently as deemed necessary.

ARTICLE 27 – STATUTORY HOLIDAYS

27.01 Statutory Holidays

Employees will be entitled to ~~twelve (12)~~ thirteen (13) and such other holidays as may be in future proclaimed or declared by either the Provincial or Federal Governments:

New Year's Day	Labour Day

If at the end of a year (fifty-two (52) weeks dating from an employee's first scheduled shift in January), an employee has not had a minimum of one hundred ~~seventeen sixteen~~ (1176) days off, ~~they she/he~~ shall be paid extra at double time rates for each day by which ~~their her/his~~ total number of days off falls short of one hundred ~~seventeen sixteen~~ (1176), except that ~~they she/he~~ shall not again be paid for any day for which ~~they were she/he~~ ~~was~~ paid at the rate of double time under Article 21 or Article 27.04.
